

40 years of expertise in the field of Aeronautics.

The LGF Group breaks down into two entities:

Aeronautical boilermaking and sheet metalwork

Complex machining of small and medium dimensions (Short and medium runs)

Our business

Light boilermaking and forming
 Precision sheet metalwork
 CNC Machining Turning Milling (Hard and Soft materials) Welding TIG (Linear/Circular), MIG, Spot, Seam
 Assembly and fitting of aeronautical sub-assemblies
 Bending, crimping (Tightness tests)
 Heat treatment (Aluminium)

ISO 9001
 EN 9100
 Nadcap AS7003
 (Welding)
